## DISINFECTANTS

### WHY DISINFECTION IS IMPORTANT?

Even though when used properly, common cleaning products can remove some germs, it won't be enough to guarantee perfect hygiene at home and workplace. Therefore it is important to use disinfectants with bactericidal and fungicidal action that kills all known germs. These are biocide mixtures of active substances developed to eliminate or prevent the action of the harmful bacteria to the human body.

pH 0.5-1.5 | 5L

### DISINFECTING SANITARY GEL CLEANER DC 300

- Kills 99,9% of the germs* Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus, Enterococcus hirae, Candida albicans
- The concentrated gel features a highly efficient formula that remains attached to the surface for a long period, incl. under water, and quickly eliminates calcium buildup, rust, organic and non-organic heavy stains
- Suitable for thorough cleaning and daily maintenance
- No chlorine odor
- Fresh peach scent
- **Ready to use, no dilution needed**

*License № 1733-1/05.12.2014 for placing on the market

pH 1.0-2.0 | 5L

### DISINFECTANT BATHROOM CLEANER DC 301

- Kills 99,9% of the germs* Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus, Enterococcus hirae
- Features a highly efficient active foam formula that quickly and easily eliminates all calcium buildup, rust, organic and non-organic stains
- Suitable for thorough cleaning and maintenance
- No chlorine odor
- Leaves a fresh scent
- **Biocidal product, ready to use**

*License № 1202-2/12.02.2015 for placing on the market

pH 10.5-11.5 | F&B | 5L

### MULTI SURFACE DEGREASING DISINFECTANT DC 302

- Multi-purpose disinfectant with alkaline action
- Kills 99,9% of the germs* Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus, Enterococcus hirae, Candida albicans
- Eliminates quickly and easily grease buildup, organic and stubborn stains from ovens, stoves, grills, hoods and grates, ceramic glass cooktops, fireplaces, barbecue grills, etc.
- Disinfects and cleans heavily stained countertops, cabinets, sinks, refrigerators, cookware, utensils, etc.
- Suitable for thorough cleaning and maintenance
- No chlorine odor
- **Biocidal product, ready to use**

*License № 1201-3/29.11.2019 for placing on the market

pH 8.5-10.0 | F&B | 5L

### MULTIFUNCTIONAL DISINFECTANT DC 303

**DISINFECTIVE SPRAY WITH MULTIFUNCTIONAL ACTION**

- Biocidal gel with proven bactericidal, fungicidal and virucidal action
- Kills 99% of the germs* incl. **Coronaviruses** (MERS-CoV, SARS-CoV-1 и SARS-CoV-2)

- No chlorine odor
- **Ready to use, no dilution needed**

*Product license № 2599-2/30.10.2020 for placing on the market

pH 10.5-11.5 | F&B | 5L

### CONCENTRATED UNIVERSAL DISINFECTANT DC 305

**FOR FLOORS AND HARD SURFACES**

- Concentrated biocide with bactericidal, fungicidal and virucidal action
- Kills 99.9% of the germs* (Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus, Enterococcus hirae), fungi (Candida albicans) and enveloped viruses*Hepatitis viruses (B,C,D), HIV, Influenza Viruses, **Coronaviruses** (MERS-CoV, SARS-CoV-1 и SARS-CoV-2)
- Suitable for disinfection and cleaning of various types of surfaces in residential buildings, health and medical facilities etc.
- No chlorine odor
- **Biocidal product, use only deluted**

*License № 3096-1/16.03.2021 for placing on the market

## PERSONAL CARE PRODUCTS

pH 5.5-7.5 | 400ml / 1L / 5L

### ANTIBACTERIAL HAND GEL PC 504/505/508

- Antibacterial hand gel with alcohol-based formula for excellent hand hygiene
- No need to use water and soap
- Kills 99,9% of bacteria and enveloped viruses**
- **Coronavirus efective** (MERS-CoV, SARS-CoV-1 и SARS-CoV-2)
- Its formula features refreshing fragrance and moisturizing ingredients - Aloe Vera and Glycerin
- **Ready to use, no dilution needed**

*License № 1007-3/12.02.2015 for placing on the market

### ELECTRICAL TOUCHLESS SANITIZER DISPENSER

An electrical mobile handwashing station that dispenses a consistent pre-set quantity of sanitizer without the risk of bacteria transfer thanks to automatic touch-free operation.

- Ultra-hygienic touchless operation
- Automatically delivers the perfect measure every time
- Portability enables hand hygiene in any location
- Saves the cost of producing ready-made cartridges - 1000 ml, built-in tank
- Suitable for gel disinfectants
- Easy operation without the need for power supplies cables (works with 6 AA batteries, not included)
- Possibility of mounting directly on the wall in bathrooms, corridors, lobbies or with a portable stand for gardens, halls and large rooms

### MEDIX PROFESSIONAL – GELLY

Extremely easy to use disinfectant gel dispenser. All you have to do is put your hands under the dispenser and press the button with the foot, it will do the rest. Gelly is mechanically driven and equipped with "Handsfree" technology, through:

- Avoids the spread of germs
- Guarantees a high level of hygiene
- Is extremely reliable and durable construction
- Can easily ensure replacement of the disinfectant vial and locking system protection against theft or unregulated replacement of the product

*Based on conducted microbiological tests of the products which demonstrate, that when observing the specified exposure time and usage instruction, the necessary reduction of the strains Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus, Enterococcus hirae, Candida albicans is achieved, according to the requirements of BDS EN 13697:2002, BDS EN 13697:2015 and BDS EN 1040:2006. Use the biocidal products with caution. Always read the label and product information before use. Keep away from children. Hazard category: corrosive and irritating.

**When following the exposure time of 60 seconds and the usage instructions. Biocidal product with bactericidal and partially viruscidal (enveloped viruses) action for hand hygiene and disinfection. Use the biocidal product with caution. Always read the label and product information before use.

- **Ready to use, no dilution needed**

## DOSING SYSTEMS

### MDS 03P

With a combination of revolutionary technologies and patented solutions in hydrodynamic, ProMax systems are the perfect solution for public buildings, as well as industrial enterprises in need of precision dosing of chemicals and detergents. The ProMax dosing system is characterized by high performance and precision, ensuring precise dosing even in cases of reduced water pressure.
- A durable and reliable construction, made of composite ABS materials, allowing easy upgrade of the system with additional modules and functionalities.
- Patented protection against returning of the detergent in the base vessel, without affecting the useful flow.
- Special seals with wide chemical resistance for working with maximum number of detergents.
- Precise dosing values for the detergent, for safe and efficient operation with containers of different volume and concentration of solution (bottle, bucket, machine tank).
- Aesthetic design that saves space and allows quick and easy installation and maintenance.
- Optimizes maintenance costs.

### MDS 01B

The easiest, quickest and most convenient solution for controlled dosing of liquid chemicals and detergents with wide application in the public sector, as well as in the light industry enterprises.

**6 fixed dosing settings**
- 1/5 fl. oz.; 1/3 fl. oz.; 1/2 fl. oz.; 2/3 fl. oz.; 5/6 fl. oz.; 1 fl. oz.

**High viscous permeability**
- Fittings and tubes with larger diameter for higher performance when working with high viscosity products (> 4000Cps).
- Flexible, shock-resistant exhaust pipe.

**Universal, faucet with double O-rings and two-way valves.**
**Convenient and easy switching of the selected dosage.**

## PERSONAL CARE PRODUCTS

pH 5.5-6.5 | 5L

### CREAMY LIQUID SOAP FOR SENSITIVE SKIN PC 500

- Suitable for people with sensitive skin
- Cost-effective formula enriched with Aloe Vera extract
- Contains excellent washing components
- With delicate scent
- Suitable for daily use
- **Ready to use, no dilution needed**

pH 5.5-6.5 | 5L

### LIQUID SOAP PC 501

- Creamy liquid soap
- Cost-effective formula enriched with milk protein and moisturizers
- Delicate milk and honey scent
- Suitable for daily use
- **Ready to use, no dilution needed**

pH 5.5-6.5 | 5L

### LIQUID SOAP PC 502

- Cost-effective formula enriched with Aloe Vera extract
- With delicate floral scent
- Suitable for daily use
- **Ready to use, no dilution needed**

pH 5.5-6.5 | 5L

### LIQUID SOAP PC 503

## FABRIC SOFTENERS

5L

### CARPET & FABRIC CLEANER DFC 102

Concentrated liquid detergent for professional use for washing and cleaning different kinds of textile – natural and synthetic fabrics, interior textile items, rugs, carpets, upholstery, car upholstery, tapestry, etc.

- Its penetrates deep into the fibers and removes stains and stubborn dirt
- Preserves the colors

**Usage: For machine washing: from 2.5ml to 5ml in 1L of water.**
**For manual washing: from 25ml to 50ml in 1L of water**

5L

### FABRIC SOFTENER FC 103/FC 104

- Ensure high hydrophilicity and soften the fabrics
- With antistatic effect
- For easier ironing
- Contain perfume capsules for long-lasting scent
- **Usage: Ready to use, no dilution needed. For machine washing: 22ml for 1kg of dry laundry**

## SANITARY & TOILET BOWL CLEANERS

5L

### TOILET BOWL CLEANER TCL 208 / 209 / 217

- Suitable for all acid-proof bathroom surfaces, such as toilet bowls, urinals, bidets, and sinks
- The concentrated gel thoroughly covers the treated surfaces and efficiently removes limescale, rust, stains from organic and non-organic origin, leaves the surfaces clean and continues its action in the plumbing
- No chlorine odor
- Fresh ocean scent, pine scent, intensive scent
- **Ready to use, no dilution needed**

5L

### SANITARY SPRAY CLEANER SCL 204

- Highly efficient for cleaning hard-to-reach spots and vertical surfaces
- Removes calcium buildup, rust, organic and non-organic stains.
- Highly effective for cleaning after renovation and for daily maintenance of all acid-proof surfaces, sinks, bath-tubs, sanitary ware, tiles, joints, faucets and showers, glass and acrylic shower cabins, heavily stained terracotta
- Leaves the stainless steel, enamel and chrome surfaces clean and sparkling
- No chlorine odor
- **Directions for use: Ready to use, no dilution needed**

5L

### SANITARY GEL CLEANER SCL 206

- Concentrated gel based on non-organic acids and efficient solvent
- Perfect performance for thorough cleaning and daily maintenance of all acid-proof surfaces, sinks, bath-tubs, sanitary ware, tiles, joints, faucets and showers, glass and acrylic shower cabins, heavily stained terracotta
- Quickly and efficiently removes and dissolves calcium buildup, rust, organic and non-organic stains
- Leaves the stainless steel, enamel and chrome-plated surfaces clean and sparkling
- No chlorine odor
- **Ready to use, no dilution needed**

## SUPER CONCENTRATED DETERGENTS

F&B 5L

### SUPER CONCENTRATED ANTICALK BCD 251

- Super concentrated unique formula with an antibacterial ingredient
- Suitable for cleaning boilers, coffee machines, dishwashers, pots and other water heaters
- Extremely effective for basic and daily cleaning of all acid-resistant surfaces, sinks, bathtubs, faience, tiles, joints, batteries, glass and acrylic showers, highly contaminated terracotta
- Applicable in food processing
- Suitable for cleaning after renovation - removes gypsum, lime, cement, plaster, rust stains from acid resistant surfaces
- In regular use, it prevents scale
- With a special anti-corrosive ingredient
- No chlorine odor
- **Dilution – 1:20, for tough stains up to 1:5**

## PRO DRIVE – CAR CARING PRODUCTS

F&B 5L

### SUPER CONCENTRATED DEGREASER DCD 252

- Super concentrated degreaser for professional use. For thorough cleaning and degreasing of appliances, machines, tools and parts, walls, air filters, ovens, grills, hotplates, barbecues, deep fryers, vents, enameled surfaces, scorched cookware, faience, furnaces, industrial flooring, heavy-weight vehicles, public transport buses, trains, etc.
- Applicable in food processing
- No added colorants and scents

# TRUSTED PARTNER OF THOUSANDS SATISFIED PROFESSIONALS

**Medix Professional** is a specialized series of products created with the purpose to fulfill the professional needs of the modern business. The product range features highly specialized detergents, professional series of biocidal products, as well as multi-purpose cleaners.

The **Medix Professional** series is based on over 25 years of proven experience and in-depth laboratory research in the field of household chemistry. Besides uncompromising quality and innovative formulas, **Medix Professional** offers individual consultations and demonstrations of the products.

In **Medix Professional**, we strictly control all stages of the production process, from input analysis of the raw materials to the final product manufacturing, hygiene and safety procedures. The prestigious international audits and certificates serve as a proof of the statements above.

- **Medix Professional** is in compliance with all European regulations, as well as the Bulgarian legislation and supervisory authority
- **We are** a Bulgarian company that is seriously concerned with the environment. This is why we started developing series of products with biodegradable raw materials in full compliance with the Regulation (EC) № 648/2004
- The constant improvement of the products is guaranteed by the extensive scientific and laboratory research conducted by the highest qualified specialists in the field of household chemistry, as well as the know-how exchange with world-renowned professionals
- Over 2,000 satisfied customers in various industries

**MEDIX PROFESSIONAL - purely professional solutions!**

**F&B** – Suitable to use in Food & Beverage processing Plants

– Product with biodegradable raw materials complying with Regulation (EC) No 648/2004. Super economic use.
